Dear Ms. Noonan:

Thank you again for your kind note from a few months ago.

I thought you might be interested in the campaign the American College of Emergency Physicians has been conducting to dispel the myths about emergency medicine. Enclosed are a letter and a copy of a print ad that were widely distributed to Congressional offices, health policy groups, the media and all of our members.

Again, on behalf of the 120 million patients we treat each year, I thank you for your help in shedding a spotlight on our issues. They really affect all Americans.
