

KNOW WHAT TO DO

if in an Auto Accident with Power Lines

If the car you are in hits a utility pole, your vehicle and the surrounding area can become energized.

*Even if you do not touch lines or equipment, you can still be **killed or seriously injured.***

1. Do NOT leave the car, and warn others to stay away.

2. Call 911 to have the utility notified.

3. Wait until a utility professional has told you it is safe.

The **only** reason to exit the vehicle is **if it's on fire.**

If the car is on fire, jump clear of the vehicle: **with feet together, and without touching the car and the ground at the same time.**

Continue to **hop away** with your feet together as far as you can.
