

Andrew Dugan

Chief Technology Officer

Andrew Dugan is Chief Technology Officer for CenturyLink. In this role, he is responsible for the development, integration and deployment of CenturyLink's global network supporting Consumer, Wholesale, Government and Enterprise markets.

Andrew is a veteran technology executive with more than 30 years of experience in building telecommunications networks, switching platforms and services platforms. Prior to his CTO role, he served as CenturyLink senior vice president of technology planning, network architecture and security. He joined Level 3 in 1998 where he played an integral part in building its global network. He held various roles at Level 3 and was named its CTO in 2016.

Before joining Level 3, Dugan designed and built transport network support systems, enhanced voice services platforms and next generation voice switching networks for MCI WorldCom. He also worked for AT&T Bell Laboratories.

Dugan is an innovator with more than 20 networking patents. He holds a bachelor's degree in computer science and electrical engineering from the University of Colorado and a master's degree in computer engineering from the University of Michigan.
