

SATURDAY, JUNE 16, 2018 – 5 AM WEATHER FORECAST

Temperatures managed to dip into the mid 50s before dawn, however as the sun is coming up temperatures are already beginning their warm up. Look for a much warmer day today with highs topping out near 80 degrees early this afternoon. Sunshine this morning may mix with a couple of clouds at times, but look for a few more high clouds to pass by at times this afternoon. Winds today will be light at times this morning with an occasional breeze from the west or northwest up around 10 mph briefly. Then as we get closer to lunchtime, the wind is expected to become a bit more consistent around 10 mph. The wind direction will shift to come from the southwest as the afternoon progresses with a high gust approaching 20 mph mid to late afternoon. Dewpoints will be in the 50s today and for most of Sunday, although they should be closer to 60 degrees tomorrow before climbing well into the 60s on Monday. Tonight will wind up being pretty similar to last night with lows a little closer to 60 degrees. Sunday looks a lot like today with the wind more from the south in the afternoon, then the wind gets gustier on Monday ahead of an approaching storm system for Tuesday.
