

FRIDAY, AUGUST 7, 2020 – 6 AM WEATHER FORECAST

A mostly dry start to begin our Friday morning in the wake of scattered showers and storms across central Maryland overnight. Despite areas late yesterday that were measuring their rainfall in inches as storms sat in a few spots, we managed to sneak through the night with just a trace of rainfall. As we work through the day the weather looks to feature more sun than clouds early, then more clouds than sun late. Since we will heat up into the mid 80s with it feeling like it's in the upper 80s, once again the chance for some showers and storms will increase in the afternoon. Some showers could linger into our Friday night, but the good news is a slightly more stable and drier weather pattern will begin to take hold on Saturday. This will translate into a reduced chance for showers and storms with sunnier, hotter conditions on the course.
