

FACT SHEET UTI-Miramar, FL

Campus Overview

- UTI opened its approximately 103,000 square foot, state-of-industry campus in the South Florida suburb of Miramar in August of 2022.
- The Miramar campus is one of two campuses in Florida.
- The campus has nine classrooms, six classroom/labs and seven individual labs that supports its automotive, diesel and welding programs.
- Early Employment Partners include Case Power & Equipment of Florida, Hendrick Automotive Group, Hertz, Morgan Auto Group, Sunbelt Rentals, and Sysco.
- UTI-Miramar awards the following Occupational Associates Degrees (AOD):
 - Automotive Technology II
 - Automotive & Diesel Technology II
- UTI-Miramar awards the following diplomas:
 - Diesel Technology II
 - Welding Technology
 - Airframe and Powerplant Technician

Core Programs

[The Automotive Technology program](#) teaches students how to diagnose, maintain and repair domestic and foreign automobiles.

[The Diesel Technology program](#) teaches students the basic knowledge and skills to diagnose malfunctions in mechanical and electrical systems, and make necessary repairs and replacements on diesel engines, commercial vehicles, and heavy equipment.

The [Automotive and Diesel Technology combined program](#) provides students with every Automotive and Diesel course, providing graduates the flexibility to pursue careers in both industries.

[The Welding Technology program](#) gives the hands-on training needed to prepare for a flexible career in industries from automotive fabrication to aerospace. Students learn about the procedures and equipment required to weld using gas metal arc (GMAW), shielded metal arc (SMAW), flux-cored arc (FCAW) and gas tungsten arc (GTAW) welders.

[The Airframe & Powerplant Technician program](#) – The 18-20 month program covers basic sheetmetal and welding familiarization, assembly and rigging, airframe fire protection, airframe electrical, navigation and communication systems, hydraulics and pneumatics, reciprocating engine operation, and propellers. Graduates are eligible to apply and test for Airframe and Powerplant FAA Certification.

Manufacturer-Specific Advanced Training (MSAT)¹

[BMW of North America FastTrack technician training program](#) – A 12-week advanced training program utilizing tools, technology, and procedures that are specific and proprietary to BMW vehicles.

¹ Following completion of the relevant core diesel or auto program.

Accreditation and Honors

UTI-Miramar is accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC), which is recognized by the U.S. Department of Education.

STEM, Community & Educator Outreach

UTI is a member of the STEM Education Coalition, a nationwide initiative that reflects our commitment to ensure science, technology, engineering, and math skills are interwoven throughout our curriculum.
