Braava jet®

Robot Mop 

Braava jet® m6 mops multiple rooms, large spaces

The Wi-Fi® connected Braava jet® m6 robot mop delivers fresh, clean floors throughout the entire home – learning, mapping and adapting from room to room. Ideal for multiple rooms and large spaces, the Braava jet® m6 helps tackle sticky messes, grime¹, and kitchen grease on hard floors. Simply attach a mopping or sweeping pad and the robot automatically takes it from there.

Guided by serious smarts

- Like the Roomba® s9+ and i7+ robot vacuums, the Braava jet® m6 uses iAdapt® 3.0 Navigation with vSLAM® technology and Imprint™ Smart Mapping to get to know the home's floor plan, giving users total control to choose which rooms are cleaned and when.
- Intelligent and advanced navigation enables Braava jet® m6 to clean in an efficient pattern while navigating around furniture, rugs, and other obstacles.
- The iRobot HOME App gives you complete control from anywhere – letting you schedule, customize, and select the rooms you want cleaned.
- Wi-Fi® connectivity allows users to initiate a cleaning through Alexa™ enabled devices or the Google Assistant.
- Using Imprint™ Link Technology, the Braava jet® m6 teams with Roomba®, and automatically starts mopping after vacuuming is finished.

Doubles down on messes

- Braava jet® m6 automatically selects the correct cleaning mode based on pad type.
 - **Wet Mopping** – Wet Mopping pads feature wicking fibers and help break-up sticky messes, grime¹, and kitchen grease
 - **Dry Sweeping** – Dry Sweeping pads use electrostatic force to capture dirt, dust, and (pet) hair
- Precision Jet Spray loosens dirt and stains, while Braava jet® pads break up and lock away debris.
- Targeted spray tackles dirt and stains, and sticky messes. Bigger pads² cover more ground in one pass, and clean larger spaces in less time.
- You never have to touch the dirty cleaning pads with the easy Pad Eject button – simply press the button and the pads falls into the trash.
- Automatically returns to the dock and recharges as needed, then continues cleaning until the job is complete.

Easy cleaning on hard floors

- With a maximized-edge, low-profile design, Braava jet® gets into hard-to-reach places, including corners, under and around toilets, and below cabinets.
- Braava jet® m6 searches for obstacles in its path before it sprays to help keep furniture, rugs, and walls dry³.
- To keep Braava jet® m6 from entering unwanted areas, such as rooms without a door, just create an invisible boundary with a Virtual Wall® Barrier.
- Just add water. Or, for a long-lasting, fresh scent, use Braava jet® Hard Floor Cleaning Solution.

¹Tested in spot clean mode
