

# Roomba®

## Roomba® 205 DustCompactor™ Combo

The Roomba® 205 DustCompactor™ Combo Robot features industry-leading innovation inside. Debris is suctioned up, continuously compacted, and contained inside the robot for up to 60 days at a time. Floors are barefoot-ready with 70X stronger power-lifting suction\* and 2X deeper scrubbing\*\* using a re-usable, washable microfiber mop pad.

*\*As compared to Roomba® 600 series robots*

*\*\*With SmartScrub engaged, compared to the standard mop mode for IEC standards for coffee*

### Cleans more because it holds more.

- **Innovation Inside:** An industry first, this robot continuously crushes debris right inside using a mechanical compacting process, so you don't have to empty it for up to 60 days.
- **A sleek space-saver:** When space is at a premium, onboard compacting and debris management eliminates the need for a separate self-emptying station.
- **Dirt and debris – done:** 4-Stage Cleaning includes 70X more power-lifting suction\*, a Multi-Surface Rubber brush, and Edge-Sweeping brush to devour dirt and dust bunnies, plus a microfiber mop pad to leave floors shiny and clean.

*\*Compared to Roomba® 600 series robots*

### Cleaning has never been so simple.

- **Super-smart mapping and navigation:** ClearView™ LiDAR sleekly hidden inside the robot quickly maps your home, avoids obstacles and cleans in neat rows, even in the dark.
- **Get the right clean:** Choose from settings including vac only, mop only, or combo vac-mop, and rest easy as, unlike other robots, the Roomba® 205 DustCompactor™ Combo Robot won't mop rugs thanks to automatic carpet detection.
- **Your clean, your way:** Schedule and target rooms based on your daily routine and adjust the number of cleaning passes, levels of suction power, and amount of mopping solution pumped onto the microfiber mopping pad.
- **Easy-to-use Roomba® Home App:** Simply tap to set a custom clean, get time estimates, check on the filter life, or create keep-out zones to avoid specific areas.
- **Mopping convenience:** Leave floors beautifully cleaned thanks to the built-in mop with a micro-pump controlling water flow and keeping the mopping pad uniformly moist during cleaning. Use water or a compatible cleaning solution\*, and choose SmartScrub for 2x deeper scrubbing\*\*.
- **3 easy ways to control:** Conveniently control your Roomba® robot by speaking to your preferred voice assistant-enabled\*\*\* devices, tapping the app, or pressing buttons on the robot.

*\*See <https://homesupport.irobot.com/s/article/roomba-combo-cleanser> for list of compatible cleaning solutions*

*\*\*Compared to standard vacuum & mop mode for coffee and grime*
