- Thermal Management

Sustainability
Sustainability is at the heart of 3M. It anchors purpose-driven innovation in our products, manufacturing processes and new technologies—and we’re always trying to do more. It is 3M’s ambition to meet the increasing expectations of our customers, employees, investors and stakeholders—and grow our business—by continuing to make bold sustainability commitments and taking stronger actions.

3M has a long-standing commitment to sustainability, from the groundbreaking Pollution Prevention Pays program that began in 1975 to our increasingly ambitious 2025 Sustainability Goals that center around 3M’s Strategic Sustainability Framework: Science for Circular, Science for Climate and Science for Community. These goals are designed to improve the footprint of our own operations, help our customers meet their own sustainability goals and drive action on global environmental and social issues.

Community Engagement (3Mgives and 3M Foundation)
Cash and product donations to education, community and environmental programs topped $88 million in 2021; 3Mgives, the social investment department of 3M, and 3M Foundation have collectively contributed $1.9 billion since 1953. 3M employees and retirees volunteered more than 187,000 hours improving lives around the world.
