### **About the ADP Small Business Report<sup>®</sup>**

The *ADP Small Business Report*<sup>®</sup> is a monthly estimate of private nonfarm employment among companies in the U.S. with 1-49 employees and is a subset of the *ADP National Employment Report*<sup>®</sup>. The data for this report is collected for pay periods that can be interpolated to include the week of the 12<sup>th</sup> of each month, and processed with statistical methodologies similar to those used by the U.S. Bureau of Labor Statistics to compute employment from its monthly survey of establishments. Due to this processing, this subset is modified to make it indicative of national employment levels; therefore, the resulting employment changes computed for the *ADP National Employment Report* are not representative of changes in ADP's total base of U.S. business clients.
