

Arthrex Corporate Fact Sheet

Helping Surgeons Treat Their Patients Better®

Shaping the Future of Medical Care

Arthrex is a global medical device company and a leader in multispecialty minimally invasive surgical technology innovation, scientific research, manufacturing quality, and medical education. With a corporate mission of Helping Surgeons Treat Their Patients Better, Arthrex has pioneered the field of arthroscopy and sports medicine and specializes in the latest 4K multispecialty surgical visualization and OR integration technology solutions.

Innovation

Innovation drives us to develop cutting-edge products and techniques that revolutionize medical care. Our relentless pursuit of progress ensures that we remain at the forefront of medical advancements, entering new markets that include trauma, endoscopy, spine, aesthetics, cardiothoracic, cancer cell detection, neurosurgery, and wound healing.

Medical Education

Arthrex offers comprehensive educational programs—including hands-on training, workshops, surgeon observation programs, and online resources—to support and train surgeons and medical staff worldwide.
