

Bosch RefinemySite Empowered Collaboration

YOUR DIGITAL POWER TOOL

Construction projects are subject to constant changes in plans and conditions that impact the work to be implemented on site. Without an efficient way to communicate updates and plan around changes, projects fall behind schedule and additional costs pile up quickly.

RefinemySite is a cloud-based construction collaboration platform from Bosch that uses Lean principles to enable your entire team – from owners to trade contractors – to plan accurately, communicate clearly, and execute work efficiently. It's the easy-to-use digital platform that enables better on-the-job and post-job learning and inspires decisions that save you time and money. Bosch **RefinemySite** empowers your team, builds trust, creates a culture of responsibility and enhances communication.

- ▶ Access the platform anywhere, anytime – from the office to the jobsite.
- ▶ Surface KPIs like Percent Plan Complete (PPC) and variances for enhanced visibility into performance.
- ▶ Add photos, notes and documentation for easy access.
- ▶ Work in an unconstrained digital environment – this wall never ends.
- ▶ Stay informed with real-time notification of all changes.
- ▶ Excel with hands-on support from our team to yours.

OUR VISION

At Bosch, we have over 100 years of experience empowering teams on the jobsite. And our expertise isn't limited to power tools – we're global leaders in IT with an emphasis on digital solutions, and we're building a connected ecosystem for Lean, BIM and IoT.

"REFINEMYSITE IN MY OPINION IS THE BEST, LEANEST TOOL ON THE MARKET."
– SCHEDULING MANAGER IN ARIZONA

"WE'RE COMMITTED TO USING REFINEMYSITE FOR ALL OF OUR PROJECTS MOVING FORWARD."
– SUPERINTENDENT IN TEXAS
