BRAZIL KEY FINDINGS

STEM Jobs:

- *Students* report the highest levels of familiarity with STEM jobs, with more than half saying they're very or somewhat familiar with these types of jobs.
- Across all audiences, the majority of respondents don't currently work in a STEM job, but more than half of *Students*, *Job Seekers*, and *Career Changers* say they're interested in working in STEM.
- All audiences agree that career opportunities in STEM jobs will increase over the next 10 years, with more than 70% of *Students* agreeing with this sentiment.
- *Students*, *Job Seekers*, and *Career Changers* are worried that they won't be able to find a STEM job that pays enough to support themselves or their family. Across all audiences, respondents agree that there are fewer STEM jobs in their local community than in other areas.

Digital Credential Programs

- Almost half of all audiences are familiar with digital credential programs, and *Job Seekers* had the highest familiarity of these types of programs. Those that have earned a digital credential agree that it was helpful in achieving their career goals.
- Cost is top-of-mind for all audiences, as it's the most important factor to consider when deciding to earn a digital credential

GLOBAL KEY FINDINGS

1. Awareness of STEM jobs is low, and many are concerned these careers won't pay enough.

- 50% of *Students*, *Job Seekers*, and *Career Changers* are interested in pursuing a STEM-related job.
- 64% of *Career Changers* are not familiar with STEM jobs.
- Many respondents are unsure of which careers are considered to be a STEM job.
- 62% share concerns that they won't be able to find a STEM job that pays enough to support themselves or their family.

2. With misconceptions that STEM training is expensive, many learners say they don't know where to start and that they don't know enough about digital credentials.

- 61% think they are not qualified to work in a STEM job because they don't have the right academic degrees.
- 40% of *Students* say the greatest barrier to professional or technical skill development is that they don't know where to start.
- 60% of respondents worry that digital credentials may be costly to obtain.
- 27% of *Job Seekers* and *Career Changers* say that affordability is the single most important consideration when pursuing digital credentials and training for STEM jobs.
- Being able to continue to work while earning a credential is particularly important to *Career Changers*.

GLOBAL KEY FINDINGS

3. Respondents are optimistic that jobs in STEM fields will increase in the future, and that digital credentials are a good way to supplement traditional education and increase career opportunities.

- 66% of all respondents are of the opinion that STEM jobs across industries will increase over the next decade.
- 47% of *Students*, *Job Seekers*, and *Career Changers* are familiar with digital credential programs.
- 86% of those who have earned a digital credential agree that it helped them achieve career goals.
- 75% of all respondents agree that digital credentials are a good way to supplement traditional education
- Increased career opportunities and qualifications were top reasons why respondents across the globe said they wanted to earn digital credentials.

4. Learners and workers around the world are planning to make a change, with many looking for a new job in the next 12 months.

- 61% of *Students* and *Career Changers* are actively looking for a new job now or plan to within the next year.
- More than 80% of all respondents have plans to build their skills in the next two years.
- At least 90% are confident they can develop skills or learn something new from an online program.
- 25% of all respondents say they plan to complete online coursework in the next two years.

BRAZIL: SKILLS AND EDUCATION STUDY

Students (52%) report the highest levels of familiarity with STEM jobs, with Job Seekers (46%) falling closely behind; Over three-in-ten Career Changers (31%) say they're not at all familiar with these types of jobs
