

Our Commitment:

WORK TO REDUCE GREENHOUSE GAS (GHG) EMISSIONS ACROSS OUR VALUE CHAIN.

Our Approach

MANUFACTURING

Drive
absolute reductions through behavior change, operations, renewable energy procurement and CapEx investments.

SUPPLY CHAIN

Engage
suppliers to measure and report GHG emissions + work with them to drive climate action.

INGREDIENTS

Build
climate risk and resiliency into our process + prioritize GHG reductions in our Origins™ projects for the most impacted supply chains.

ADVOCACY

Drive
systemic change through engagement and advocacy with industry and governments.

SINCE 2015 we've...

Reduced
GHG emissions by the equivalent of taking
NEARLY 3.2 BILLION
vehicle miles off the road.¹

Achieved
30% REDUCTION
in scope 1 & 2 GHG emissions within our operations.

Reached
our goal of
15% REDUCTION
in normalized energy use in manufacturing.

Advanced
ADVOCACY EFFORTS

TASK FORCE ON CLIMATE-RELATED FINANCIAL DISCLOSURES

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

IN 2020 74% OF OUR ADDRESSABLE SPEND WENT TO SUPPLIERS WHO REPORT CLIMATE IMPACTS TO CDP.
