

# Matt Dollus

VP, IoT Portfolio and Global Marketing

Matt Dollus is vice president of IoT portfolio and global marketing at Lexmark. In this role, he is responsible for the development, strategy, marketing and execution of Lexmark's global portfolio of Internet of Things (IoT) products. He supports a wide range of manufacturers, distributors and enterprises as they look to uncover unique value from IoT intelligence.

He began his career at Lexmark in 1997 and has held a variety of leadership roles, including most recently serving as vice president of global marketing. Previously, Dollus was vice president of global industry solutions, director of acquisition integration, director of solution development and integration, and manager of North America product marketing.

Dollus holds bachelor's degrees in business logistics and marketing as well as a master's degree in business administration from the University of Missouri. He is also a graduate of leadership programs at the University of Michigan Stephen M. Ross School of Business.

He lives in Lexington, Ky.
