KEY FEATURES
VALUE HIGHLIGHTS

The 2027 Mazda CX-5 delivers premium design, intuitive technology, and confidence-inspiring driving dynamics that together create exceptional value for customers in the compact SUV segment.

- Expanded suite of standard Mazda safety features across the lineup, including standard i-ACTIVSENSE features such as Rear Automatic Emergency Braking, Blind Spot Assist, Emergency Lane Keeping, Traffic Sign Recognition and more
- 4.5-inch larger wheelbase allows for larger, more spacious cabin and cargo area for comfort, versatility, and ease of use
- HMI with Google Built-In powered by Gemini, Apple CarPlay/Android Auto, and a larger 12.9- or 15.6-inch touchscreen for seamless connectivity and intuitive control
- Starting MSRP: \$29,990

ENHANCED DESIGN	DRIVING DYNAMICS
▪ Sharper, bolder proportions with CX-5's signature silhouette for a sportier and more confident look ▪ Wider rear door opening and flexible 40:20:40 rear bench ▪ Interior design conveys openness and calm to all occupants	▪ 2.5 S powertrain has accounted for as much as 87% of CX-5 sales ▪ Suspension tuning inspired by MX-5 Miata with a smooth, balanced, and connected ride ▪ Chassis updates and longer wheelbase improve stability and ride comfort
SAFETY	HUMAN-CENTRIC TECHNOLOGY
▪ Builds on CX-5's legacy of vehicle and occupant safety in IIHS testing ▪ Significantly enhanced suite of standard and available i-ACTIVSENSE safety features ▪ Enhancements in braking response and driver support for low-speed obstacles and traffic	▪ 10.25-inch digital instrument cluster with available head-up display is easier to read at a glance ▪ Streamlined driver interface keeps controls intuitive and minimizes distraction ▪ New steering wheel controls for easier access to media, navigation, and vehicle settings

DISCOVER THE KEY FEATURES

Stand out with the bolder Kodo design, featuring sportier proportions and a more confident stance

Experience more intuitive tech with Mazda's human-centric design, reducing clutter and making controls easier to use

Feel the joy of driving with Mazda's finely tuned suspension and steering, delivering a responsive, composed ride

Load gear with ease thanks to the more spacious rear cargo area designed for simpler, more flexible packing

12.9-inch or available 15.6-inch center touchscreen featuring integrated Google built-in interface

Redesigned to be larger, rear-seat passengers have more room to stretch out on daily drives and weekend trips

- For the third consecutive year, Mazda has debuted with more IIHS *TOP SAFETY PICK+* awards than any other brand. As of July 2026, with the CX-5, the latest model to earn this highest safety award, Mazda has more 2026 IIHS *TOP SAFETY PICK+* awards than any other brand.
- Mazda was recently named Consumer Reports' first-ever Safest New-Car Brand in its Safety Verdict (Consumer Reports does not endorse products or services) – reinforcing its long-standing commitment to vehicle safety across the entire lineup.
- Mazda is also committed to its long-term vision of zero fatalities involving Mazda vehicles by 2040 through continued investment in advanced safety technologies and vehicle design.
- Mazda makes four key advanced safety technologies standard across its lineup – from the MX-5 Miata to the CX-90 – because proven safety should not depend on trim level or price point.
- Includes 10 standard airbags, front, front knee, front side, front curtain and rear side impact, providing comprehensive occupant protection that exceeds many competitors in the segment.
- The 2027 CX-5 features Google built-in with Gemini, enabling hands-free voice control for functions like HVAC, navigation, radio and more, helping drivers stay focused on the road while keeping their hands on the wheel.

Drive confidently with an expanded suite of i-ACTIVSENSE safety features, many now standard for the first time in the Mazda lineup

Navigate and stay connected effortlessly with Google Maps, Google Assistant, and Google Play at your fingertips
