2021 Planning & Progress Study

Advisors

Northwestern Mutual is the marketing name for The Northwestern Mutual Life Insurance Company (NM), Milwaukee, WI and its subsidiaries.
Background

The 2021 Planning & Progress Study, a research series from Northwestern Mutual, explores U.S. adults’ attitudes and behaviors toward money, financial decision-making, and the broader issues impacting people’s long-term financial security.

The study was conducted by The Harris Poll on behalf of Northwestern Mutual. This wave included 2,320 American adults aged 18 and older who participated in an online survey between March 16 – 26, 2021. Previous waves included 2,650 American adults aged 18 or older who participated in an online survey between February 12 – 25, 2020 and 2,702 adults aged 18 or older who participated between June 26 – July 10, 2020.

Results were weighted to Census targets for education, age, gender, race/ethnicity, region and household income. Propensity score weighting was also used to adjust for respondents' propensity to be online. No estimates of theoretical sampling error can be calculated; a full methodology is available.
Financial advisors are the most trusted source for financial guidance in 2021

Who do you trust the most for financial advice?

- Financial advisor: 26% (2021), 22% (2020 Post COVID-19)

NB. Who do you trust the most for financial advice?
Nearly 4 in 10 Americans currently work with a financial advisor, up from 29% pre-pandemic.
15% of Americans did not have a financial advisor before the pandemic but have now started working with one or plan to get one.

Impact on desire to get a financial advisor due to market volatility and economic downturn prompted by COVID-19:

1. I didn't have an advisor before, but moving forward I will work with one/have started working with one (15%)
2. I didn't have an advisor before and don't plan on getting one now (50%)
3. I did have an advisor and will continue working with the same one (28%)
4. I did have an advisor, but moving forward will work with a different one/have started working with a different one (7%)
