

# PPL CORPORATION

## Building the utility of the future – today

- Headquartered in Allentown, Pa.
- \$7.8 billion in annual revenue
- Four regulated utility companies serving 3.5 million customers in the U.S.
- More than 6,700 employees
- 20,600 square miles of service area
- About 7,500 MW of regulated generation capacity in Kentucky

As one of the largest investor-owned utility companies in the United States, PPL Corporation (NYSE: PPL), is committed to creating long-term, sustainable value for our 3.5 million customers, our shareowners and the communities we serve.

Our high-performing regulated utilities – PPL Electric Utilities, Louisville Gas and Electric, Kentucky Utilities and Rhode Island Energy – provide an outstanding experience for our customers, consistently ranking among the best utilities in the nation. PPL’s companies are also addressing challenges head-on by investing in new infrastructure and technology that is creating a smarter, more reliable and resilient energy grid.

We are committed to doing our part to advance a cleaner energy future and drive innovation that enables us to achieve net-zero carbon emissions by 2050 while maintaining energy reliability and affordability for the customers and communities we serve.

PPL is a positive force in the cities and towns where we do business, providing support for programs and organizations that empower the success of future generations by helping to build and maintain strong, diverse communities today.
