## Shanshan Feng

Flash Interview

**Q. You seem like you are on cruise control out there. What is clicking for you in your game this week?**

SHANSHAN FENG: Like I said yesterday, my ball striking is always not bad. I would say my only problem was my short game, my putting especially. My putting was kind of struggling, especially at KPMG.

Coming in this week, make a little adjustment with my coach. Putting is really working. Also I got a green book this week. Greens are really tricky. I think that really helped, especially for the speed, also.

I think everything has been working very well.

**Q. How different were the conditions out there today versus yesterday?**

SHANSHAN FENG: The course played a lot longer. My front nine, I almost had to add ten yards on some holes. The course was already long and that made it even longer. So I was hitting a lot of the hybrids and 5-irons into the greens. Good thing that I actually hit them pretty well. So that's good.

**Q. What is your game plan for the weekend?**

SHANSHAN FENG: I just have very good two rounds and hopefully I just keep doing the same thing.
