JoAnne Carner

JOANNE CARNER: You figure out something, and then it's always back and you're ready to go. But I just get too stiff out there. The extra hour and a half practice doesn't add to keeping me limber for the next day.

Q. How is it getting around this golf course compared to Chicago Golf Club last year?
JOANNE CARNER: That was easy. This one is hillier, and I have a little COPD, so I wheeze a little going up these hills. You know, just takes a little something out of you.

Q. When do you think you'll want to figure out whether you want to come back? Is that a decision for down the road?
JOANNE CARNER: Yeah. Yeah. But it's always so much fun to play. And you know, I don't have the putting yips, even though I missed some today. You know, as long as you don't have the yips, you don't have to worry about playing, you know.
