

TUESDAY, JULY 6, 2021 – 5 AM WEATHER FORECAST

Look for mostly sunny skies this morning with clouds increasing as we head through this afternoon. Temps starting off in the 70s will try to hit 90 degrees again this afternoon with dewpoints in the 60s giving us a heat index in the mid 90s for a time. South and southwest winds will become breezy with gusts remaining in the teens. We will be watching the radar a lot more today as a cold front marches in our direction from the north and west. Showers and storms should look somewhat impressive this afternoon as they move east and southeast in our general direction. We could see the leading edge get into Omaha as early as 7 PM, but most of the action is anticipated to arrive after sunset. The initial wave of showers and storms will weaken this evening once the sun goes down, but some scattered showers and an isolated storm will be possible through 7 AM Wednesday. The radar activity will decrease as the morning wears on with cooler and pleasant conditions forecast for Wednesday afternoon when clouds give way to sunshine. Thursday looks nice as well, then we'll turn our attention to the next storm for Friday into Saturday.
