

WEDNESDAY, JULY 7, 2021 – 5 AM WEATHER FORECAST

Showers and a few rumbles moved through Omaha overnight dropping around two thirds of an inch of rain, but thankfully as the sun is rising right now the radar is rapidly improving. Look for the possibility of another shower or two to sneak through this morning under mainly cloudy skies, then we'll trend towards more sunshine as the afternoon wears on. While we are under these clouds most of this morning, northerly winds will pick up and become gusty pushing dewpoints down through the 60s and keeping temps cool. Finally this afternoon when the sun comes out more, temps will respond climbing through the 70s trying to get close to 80 degrees. Tonight will be quiet under clear skies and light winds with temps bottoming out in the upper 50s with a patch or two of fog possible. Sunshine early Thursday morning will mix with some clouds as a small complex of showers and storms drifts by our north. We are putting a 20% risk that we could get clipped Thursday by this activity, otherwise Friday we ramp things up even more as more showers and storms get closer to Omaha as a stronger storm system moves into the area.
