

FRIDAY, JULY 9, 2021 – 5 AM WEATHER FORECAST

Showers and storms have been very impressive across Iowa and central Nebraska so far early this morning leaving Omaha in between the large scale action. We have had some very quick developing, rapid moving pop up showers and storms around town that we will need to remain on our toes for through 8:30 AM. Otherwise if we can continue to dodge the worst of the weather early this morning, we'll keep a 40% risk of a shower or storm through 10 AM with a 20% chance through lunchtime as the models show today's overall trend of the weather getting less active heading into this afternoon. In fact once our sunshine stops mixing with clouds at times this morning, look for a hot July sun this afternoon with highs around 90 degrees, dewpoints around 70 degrees and a heat index well into the 90s. Winds will be variable at times early and late today with generally a south breeze midday in advance of a cold front pushing through Omaha tonight bringing the possibility of strong to severe showers and storms. The weather will be cooler this weekend with still some shower and storm chances on Saturday into early Sunday.
