

**MONDAY, AUGUST 9th, 2021 – 6 AM WEATHER FORECAST**

After both courses dodged a couple of chances yesterday afternoon we are now settling in for what should be an inactive day relative to showers and storms. Monday will start off clear with scattered clouds forming late this morning before becoming more overcast in the afternoon. Temperatures will warm from the weekend into the low 90s, nearing the record for today in the area of 96 degrees set back in 1900. A heat low is set to form over central PA shifting our winds slightly to out of the south starting off light this morning before picking up just after lunch. Overnight look for clouds to hang around keeping temps in the 70s while dewpoints will start to increase into the upper 60s tonight before topping off tomorrow in the low 70s staying there through Friday. The chance for showers and storms are back starting Tuesday as winds shift back to the SW bringing moist air into the area while high temps dip slightly back into the upper 80 and overnight lows into the upper 60s. Expect to see this trend continue through Friday evening before the cold front pushes its way in introducing cooler/drier conditions for the weekend.
