

### FRIDAY, JULY 29th, 2022 – 6 AM WEATHER FORECAST

Winds blowing offshore as the sun comes up this morning should combine with clear skies overhead to push the marine layer back off the coast fairly quickly as play gets underway. Overnight cloud cover kept things warmer than initially expected with lows staying in the mid 50s with wind speeds averaging 5 mph, gusting to double digits, mainly from the NNE. As things clear up along the coastline at the lower - level, mostly sunny skies will allow temperatures to once again warm in to the 60s as wind speeds increase to the speeds we saw on Thursday this afternoon, shifting more offshore this just after noon, blowing out of the NNW averaging in the mid teens gusting into the 20s at times while we once again see the Marine layer creep onshore during high tide this afternoon and once again this evening just before sunset as winds start to weaken dropping temperatures back into the 50s overnight. Saturday continues to remain very similar to Friday with temperatures near 60 degrees and winds starting out of the NNE in the morning before shifting over to the NNW as the final match finishes things up Saturday afternoon.
