

### MONDAY, AUGUST 1, 2022 – 6 AM WEATHER FORECAST

A rainy day is in full effect. The hours of focus are mostly between 11AM - 5PM, but rainy periods on either side of this timeframe are going to impact us as well. Our rain gauge is expected to get around a half an inch of rainfall, most of which falls during the day today. Highs will be stuck in the upper 50s, perhaps scraping 60, but the light winds under 12 mph prevent any sideways rain. On a brighter note, the rain should be coming to an end closer to our 10PM sunset, giving way to a much drier Tuesday. A few showers stick around on Tuesday afternoon, but their speckled nature keeps chances down at 40%. Wednesday is starting to look much improved, with sunshine expected to make a prolonged appearance!
