

WEDNESDAY, AUGUST 24, 2022 – 5 AM WEATHER FORECAST

The influence of the high pressure has taken over this morning with winds remaining light and variable through the morning hours before starting to lightly blow out of the NE this afternoon before settling out of the E early this evening. There is a chance for patchy fog to form just before sunrise around the NCR property but anything that does form will be short-lived, burning off quickly after the sun comes up. Temperatures this morning will warm up quickly out of the upper 50s under mostly sunny skies, climbing into the 70s just after 10 AM and continuing to heat up into the low 80s early this afternoon topping out near 84 degrees Wednesday. Moisture begins to trickle into the area this afternoon as dewpoints slowly climb out of the 50s into the low 60s giving us a slight chance for fog to form overnight tonight while at the same time acting to keep temps slightly warmer with lows now remaining in the low 60s as we start the day on Thursday. For the first round of the championship, skies will remain mostly sunny with winds starting out of the SW shifting over the W to the end of the day with temps warming into the mid 80s.
