

### FRIDAY, SEPTEMBER 16, 2022 – 2 PM WEATHER FORECAST

Gusty SW winds will slowly decrease as the day wears on, but pleasant conditions remain in place. Tonight will only fall into the lower 60s with the increased humidity, and the moisture may cause another round of marsh fog between 6:30 - 7:30 AM Saturday. Otherwise, the primary threat to peaceful weather will be potential for scattered showers in the morning hours. A worst-case outcome would be a few tenths of an inch from a direct hit, but there is a greater chance we stay dry through lunchtime. Thunderstorms become increasingly likely into Saturday evening and especially Saturday night.
