

**Andrea Lignell – Round 2 Stroke Play - 2023 U.S. Women's Amateur**

**If you don't mind, just kind of start off by talking about the round. I know not the finish you wanted, but some really solid golf the whole day.**

It was really solid. I was really good off the tee. I think I missed the fairway once and I putted really well today, which really helped me.

**Can you take us through some of the birdies you had? Was there something that was feeling good today out there or just kind of a good round of golf?**

Yeah, I feel like it was just like overall solid took advantage of like the easier holes like No. 1, for example, where you can easily reach it and just made a lot of those 10-to-15-foot putts that are really important to make if you want to shoot a low score.

**What are your impressions of the course?**

When I played practice rounds, I actually thought it was a pretty tough course because you need to be in the fairways because the rough is pretty thick sometimes. I really like the course. The course is in great shape, so yeah, I like it a lot.

**I noticed you didn't have a caddie for most of the day. What was the reasoning behind that?**

I guess it was my choice. I was going to have my coach as my caddie but he needed to go on a recruiting trip so I just decided to go on my own.

**It didn't seem to affect you too much.**

No, not too bad. I mean, we do it in college every day, so, yeah, I'm used to it.
