

MONDAY, JULY 8, 2024 – 6 AM ADAPTIVE OPEN WEATHER FORECAST

'Near ideal' is the best way to describe conditions for the first round of the Adaptive Open. Temps starting out in the mid 60s, will quickly warm up into the 80s late this morning under a mixture of sunshine and clouds while dewpoints drop back down into the mid 50s. Winds, starting out light, will kick off the day from the north/northwest, transition over to the northeast as intensity increases early this afternoon before then falling back off to a light northerly flow this evening as clouds start filling up the sky. Even with the quick warm up, our highs will continue to remain below normal, topping out in the mid 80s this afternoon allowing for very comfortable conditions with humidity values under 50% for the better part of the day. Wind intensity will gradually increase this morning as the surface heats up, averaging 4 - 6 mph through the morning; climbing to 7 - 9 mph this afternoon combined with gusts in the mid teens at times. We look to do it again on Tuesday, this time slightly warmer, with highs reaching into the upper 80s as winds, a touch stronger, remain from the northeast blowing 10 - 12 mph gusting near 20 mph.
