

### THURSDAY, AUGUST 15, 2024 – 6 AM WEATHER FORECAST

We received 1.19" of rainfall before 6 AM today. A complex atmosphere surrounds Minnesota, with many potential impacts. As we progress into Thursday afternoon, we will enter another favorable timeframe for storm development, especially between 4 and 8 PM. We also retain a strong westerly wind in the afternoon. We will see a repeated chance on Friday afternoon, with the strongest wind yet out of the northwest. Eventually, the low pressure slides away, and rain chances dwindle through the weekend.
