

SATURDAY, MAY 16, 2026 - US AMATEUR FOUR - BALL 6 AM FORECAST

That slight movement in the air this morning is appetizer for the weekend with winds set to become quite breezy each of the next two afternoons. Starting this morning from the southeast flow will return to its normal position out of the southwest mid-morning and increase in intensity with averages then expected to top out in the 11 - 13 mph range with accompanied gusts near 24 mph at times lasting through the end of play this evening. Temperatures on Saturday won't differ all that much from the two practice rounds with highs in the upper 80s while dewpoints holding steady in the upper 30s keep things comfortable with breezier conditions. Cold air will be making its way out of the mountains into the valley on Sunday as highs here at Desert Mountain fall back into the mid-80s as winds then become downright blustery Sunday afternoon. Flow will keep the same routine as today, settling out of the southwest mid-morning with speeds then averaging 14 - 16 mph with gusts in the mid-to-upper 20s through the evening before finally trailing off just after midnight early Monday morning.
