

TUESDAY, SEPTEMBER 29, 2026 – 2 PM WEATHER FORECAST

Cloud cover will remain the dominant feature through this afternoon, with temperatures topping out near 70 degrees. A weak disturbance crossing western Oregon may produce a few light showers, but precipitation should be limited in coverage and rainfall totals should remain quite low. Winds will stay generally light from the south to southwest, with speeds mostly around 4 – 8 MPH before increasing to 5 - 10 MPH by late this afternoon. Tonight will remain mostly cloudy and mild, with temperatures dropping into the mid-50s and only a lingering low-end chance for a shower early in the evening. Wednesday should bring a gradual improvement as the disturbance moves away, with clouds giving way to some afternoon sunshine and highs reaching the lower 70s. Winds will remain light Wednesday, generally shifting toward the north as drier air begins to filter into the region. By Thursday, high pressure will regain control, bringing mostly sunny skies, dry conditions, and temperatures warming into the mid-70s. Winds should remain relatively light Thursday, keeping conditions comfortable through the end of the Championship.
